

A large, irregular blue watercolor splash serves as a background for the title and subtitle. It has a soft, painterly texture with various shades of blue. At the bottom of the slide, there is a horizontal band of smaller, more vibrant blue and teal splatters and dots, creating a festive or artistic feel.

The pandemic was about the
WHAT.

Now we need to start thinking
WHERE, WHEN, & HOW!

A series of small, scattered blue watercolor splatters and dots along the bottom edge of the slide.

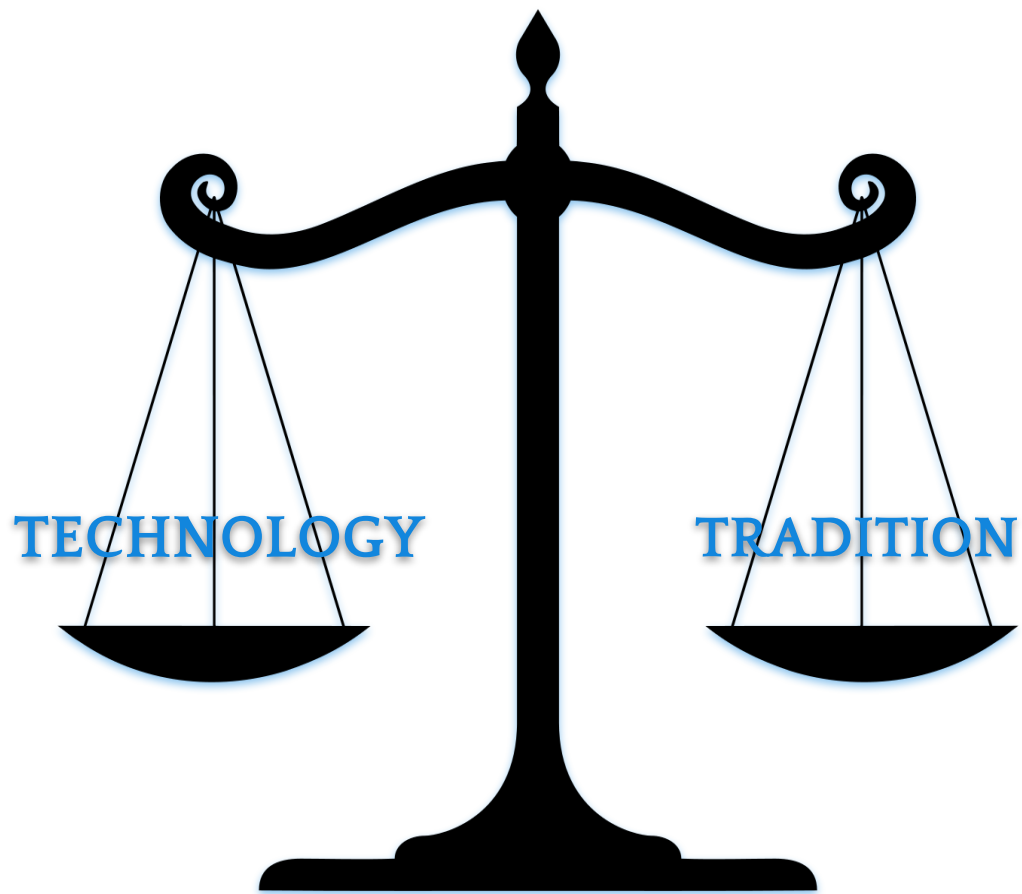

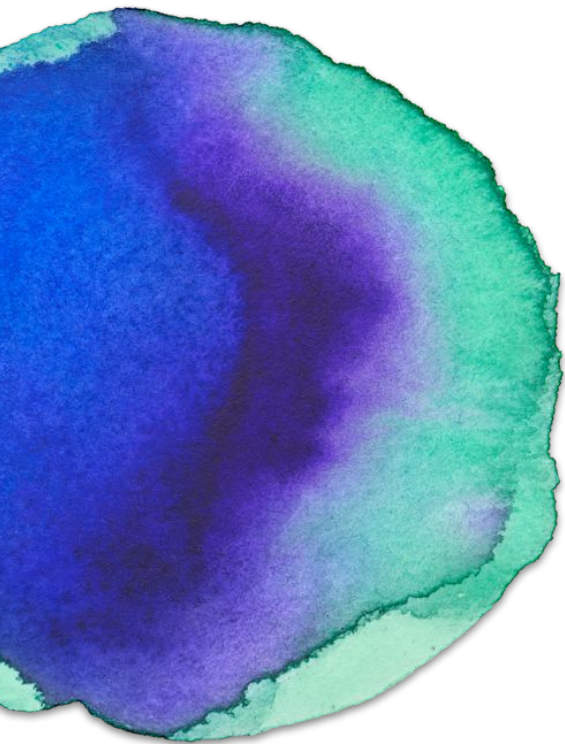

Let the curriculum be
the focus, not the
technology!

What is something you are doing in-person, that can be accomplished through technology?

What tool can I use to accomplish that task?

How can I use technology to help my students grow musically?

We teach how we were taught!

Enhancement NOT Replacement

CAVEAT: When learning to play a musical instrument, there are no shortcuts! New Wine in Old Bottles is about finding ways to **ENHANCE** the student's experience in their study of music not to **REPLACE** instruments!

Professional Development

My goal is to provide **RELEVANT** PD for teachers of the Arts.

Can be centered around:

- MUSIC TECHNOLOGY
- GOOGLE WORKSPACE TOOLS
- Other tech tools that can be used throughout your curriculum

Just have those in charge of scheduling PD reach out. I know we can put together a great program for you and your faculty/staff.
