CREATING COMMUNITY

I am planning a three day retreat for my high school band. The purpose of the retreat is for students to 1) develop their teamwork skills, 2) identify and support student leadership and 3) become more vested in our band program. We will be staying in cabins and have lots of room for indoor and outdoor activities. Please create an outline of activities we can do to support our goals that includes meal times, activities to promote teamwork and bonding and other things that will engage the students and have them feel like part of a family by the end of the event.
