

ASUV Valet Service

- Visit www.truticket.com/asuv/indexv.htm to find the available times and dates for your event's ASUV and register your vehicle for "ASUV Valet". The ASUV Valet program is available during your event's ASUV move-in only. **ASUV Valet registration concludes five (5) days prior to the first ASUV move-in day.**
- Upon registration, Exhibitors will be emailed a Check-In Pass indicating "VALET" and a separate Check-Out Pass for the move-out (note that the ASUV Valet is not available for move-out). On both your designated ASUV move-in day and your ASUV move-out day, you must first check in with the ASUV manager located at the entrance to the ASUV check-in area, adjacent to Truck Marshaling.
- Upon arriving at Lot B, you'll be asked to exchange your pre-printed "Valet" Check-In Pass for a Dock Pass. You will not be allowed access to the dock area without a Dock Pass.
- ASUV Valet participants are given express service to the dock area.
- At the designated dock, the Exhibitor turns the vehicle over to the Valet Attendant. The Exhibitor receives a claim check from the Attendant. The Attendant cannot unload vehicle but will stay with the vehicle until vehicle is unloaded.
- Once unloaded, the ASUV vehicle is driven to the parking facility by the ASUV Attendant where it will remain until the Exhibitor is ready to leave. The Exhibitor can choose to pick-up the vehicle directly from the parking facility at any time or have it returned to the designated dock prior to the end of the ASUV move-in period.
- ASUV Valet Service is complimentary with a **prepaid Guaranteed Exhibitor Parking Permit**. Prepaid Exhibitor parking is available at <http://truticket.com/mccormick>. There is a charge for ASUV Valet service without prepaid Exhibitor parking. Non-Registered Exhibitors may pay for ASUV Valet upon check-in at Lot B.
