

Susquehanna University • Department of Music • Selinsgrove, PA 17870

## **MIDWEST BAND & ORCHESTRA**

December 18-22, 2007

Chicago, Illinois

### ***NERF BALLS NOT REQUIRED!***

*Teaching Resources and Helpful Suggestions in Training  
Your Saxophone Section to Sound Really Good.*

**Dr. Gail B. Levinsky**

**Associate Professor of Music  
Susquehanna University**

**Windsor Room - Congress Hotel  
Thursday, December 20, 2007, 4:30 – 5:30 PM**

***Nerf Balls Not Required!***  
*Teaching Resources and Helpful Suggestions in Training  
Your Saxophone Section to Sound Really Good*

*The educational and musical popularity of the saxophone is in part due to the notion that it is one of easiest instruments to play. Unfortunately, it is also one of the most difficult to play properly and therefore, presents numerous challenges to both student and teacher alike. The use of nerf balls, handkerchiefs, carpet padding and other materials is NOT required. The focus of this presentation is to offer simple and fundamental pedagogical reminders when teaching young saxophonists. –Dr. Gail B. Levinsky*

POSTURE

**Instrument & Neck Strap positions:**

While playing the saxophone the neck strap must be positioned in such a way that the back of the neck is straight and the performer brings the instrument to the mouth without any manipulation of the head to the instrument. The aligning of the spine from head to tailbone is vital for maximum breathing capacity and airflow. The **alto saxophone** may be held either to the side or in front of the body. The **soprano saxophone** is positioned in front of the body while the **tenor and baritone saxophones** are always positioned to the side while the student is sitting.

**Hand and finger position:**

**Left thumb** contacts the octave key plateau at all times. When required, the thumb will gently rock toward the octave key. This is an important point, as many young players will often lift the thumb away from the rest.

**Right thumb** is placed behind the thumb hook. Do not tense the thumb into the instrument, but rather use the thumb as a guide. Remember, the neck strap supports the weight of the saxophone. Hands and fingers are rounded and curved. The fleshy part of the fingertips makes contact with the keys keeping a gentle downward direction towards the floor.

**STANDING POSITION**

*(The first and third picture is what we are looking for students to do!)*

**SITTING POSITION**

## AIR and EMBOUCHURE

### ORAL CAVITY:

- The saxophone is performed with an open throat.

### TONGUE POSITION:

- The back of the tongue should be in a low and natural position. Students can easily achieve this by thinking "ah or oh."
- The tongue should be relaxed allowing the tip or forward part of the tongue to touch the tip of the reed.

### AIR STREAM:

- Fast and focused air stream. However, one must also think about warm air.

*Have your students try this: EXERCISE 1*

Place your hand approximately 6 inches in front of your mouth. Blow a fast focused air stream toward your hand. The air should be cold. Now cup your hands as if it was winter and you were outside without gloves. The air should be warm. This concept is extremely important. The air stream in producing sound must be fast and focused, while also keeping the tongue low.

### EMBOUCHURE:

- **Upper teeth** are placed **on** the mouthpiece. (*The lower lip curls slightly over the bottom teeth remembering not to use any more lip than necessary.*) The saxophone embouchure is rounded and should be thought of as equal pressure at all four corners of the mouth. Thinking "O" (whistle or puckering of lips) will help greatly in achieving this position. Chin should be flat. (*REMINDER: This is a significant difference between the traditional clarinet embouchure and saxophone.*) The embouchure should remain constant throughout the entire range of the saxophone.

### PLACEMENT:

- Determining the amount of mouthpiece position in ones mouth is somewhat unique to each player. However, identifying the fulcrum where the reed and mouthpiece touch is an excellent place to start.

*EXERCISE 2* - Holding the mouthpiece and neck only. Have your students observe the reed/mouthpiece from a side view. Determine where the reed and mouthpiece touch. Position the embouchure and blow fast focused air.

- Pitches produced if embouchure, tongue, position and air are correct:

--Alto Saxophone-A<sup>b</sup>  
--Tenor Saxophone-E  
--Baritone Saxophone-E<sup>b</sup>

*EXERCISE 3* – The above works quite well. A more accurate indicator for determining if the student is in good position and utilizing all factors identified above is sounding the following pitches on the mouthpiece only. (*REMINDER: If your student is getting a higher pitch, mostly they are biting; too low probably too relaxed or reed strength too soft*)

--Alto Saxophone-A  
--Tenor Saxophone-G  
--Baritone Saxophone-D

## ARTICULATION & TONGUING

Tonguing:

- Good tonguing is essential to understandable musical communication. The movement of touching the reed to the tongue is called TONGUING. *REMINDER:* Observe unnecessary movement in the throat or an “in and out” movement in the jaw.
- The process of tonguing is supported by uninterrupted air.
- The embouchure should be constant and not effect tone quality.
- Motion of the tongue is away from the reed and not toward it. The goal is to fundamentally interrupt the vibration of the reed with the tongue not close it against the mouthpiece.

REMINDER: Is your student getting a **Slap Tongue** effect? This is typically achieved by closing the reed against the mouthpiece (often with the tongue in a rather flat position.) When the tongue is released from the reed a suction effect is created. *REMINDER:* Reinforce all of the above.

### EXERCISE 4

Begin slowly and repeat as necessary.

(Air stream = —————▶ )

(Tonguing = | )

The musical notation for Exercise 4 is written on a single staff in treble clef with a 2/4 time signature. It begins with a diamond-shaped breath mark. The first measure contains a quarter note G4 with a diagonal slash above it. The second measure contains a quarter note A4 with a diagonal slash above it. The third measure contains a quarter note B4 with a diagonal slash above it. The fourth measure contains a quarter note C5 with a diagonal slash above it. The fifth measure contains a quarter note B4 with a diagonal slash above it. The sixth measure contains a quarter note A4 with a diagonal slash above it. The seventh measure contains a quarter note G4 with a diagonal slash above it. The eighth measure contains a quarter note F4 with a diagonal slash above it. The ninth measure contains a quarter note E4 with a diagonal slash above it. The tenth measure contains a quarter note D4 with a diagonal slash above it. The eleventh measure contains a quarter note C4 with a diagonal slash above it. The twelfth measure contains a quarter note B3 with a diagonal slash above it. The thirteenth measure contains a quarter note A3 with a diagonal slash above it. The fourteenth measure contains a quarter note G3 with a diagonal slash above it. The fifteenth measure contains a quarter note F3 with a diagonal slash above it. The sixteenth measure contains a quarter note E3 with a diagonal slash above it. The seventeenth measure contains a quarter note D3 with a diagonal slash above it. The eighteenth measure contains a quarter note C3 with a diagonal slash above it. The nineteenth measure contains a quarter note B2 with a diagonal slash above it. The twentieth measure contains a quarter note A2 with a diagonal slash above it. The twenty-first measure contains a quarter note G2 with a diagonal slash above it. The twenty-second measure contains a quarter note F2 with a diagonal slash above it. The twenty-third measure contains a quarter note E2 with a diagonal slash above it. The twenty-fourth measure contains a quarter note D2 with a diagonal slash above it. The twenty-fifth measure contains a quarter note C2 with a diagonal slash above it. The twenty-sixth measure contains a quarter note B1 with a diagonal slash above it. The twenty-seventh measure contains a quarter note A1 with a diagonal slash above it. The twenty-eighth measure contains a quarter note G1 with a diagonal slash above it. The twenty-ninth measure contains a quarter note F1 with a diagonal slash above it. The thirtieth measure contains a quarter note E1 with a diagonal slash above it. The thirty-first measure contains a quarter note D1 with a diagonal slash above it. The thirty-second measure contains a quarter note C1 with a diagonal slash above it. The thirty-third measure contains a quarter note B0 with a diagonal slash above it. The thirty-fourth measure contains a quarter note A0 with a diagonal slash above it. The thirty-fifth measure contains a quarter note G0 with a diagonal slash above it. The thirty-sixth measure contains a quarter note F0 with a diagonal slash above it. The thirty-seventh measure contains a quarter note E0 with a diagonal slash above it. The thirty-eighth measure contains a quarter note D0 with a diagonal slash above it. The thirty-ninth measure contains a quarter note C0 with a diagonal slash above it. The fortieth measure contains a quarter note B-1 with a diagonal slash above it. The forty-first measure contains a quarter note A-1 with a diagonal slash above it. The forty-second measure contains a quarter note G-1 with a diagonal slash above it. The forty-third measure contains a quarter note F-1 with a diagonal slash above it. The forty-fourth measure contains a quarter note E-1 with a diagonal slash above it. The forty-fifth measure contains a quarter note D-1 with a diagonal slash above it. The forty-sixth measure contains a quarter note C-1 with a diagonal slash above it. The forty-seventh measure contains a quarter note B-2 with a diagonal slash above it. The forty-eighth measure contains a quarter note A-2 with a diagonal slash above it. The forty-ninth measure contains a quarter note G-2 with a diagonal slash above it. The fiftieth measure contains a quarter note F-2 with a diagonal slash above it. The fifty-first measure contains a quarter note E-2 with a diagonal slash above it. The fifty-second measure contains a quarter note D-2 with a diagonal slash above it. The fifty-third measure contains a quarter note C-2 with a diagonal slash above it. The fifty-fourth measure contains a quarter note B-2 with a diagonal slash above it. The fifty-fifth measure contains a quarter note A-2 with a diagonal slash above it. The fifty-sixth measure contains a quarter note G-2 with a diagonal slash above it. The fifty-seventh measure contains a quarter note F-2 with a diagonal slash above it. The fifty-eighth measure contains a quarter note E-2 with a diagonal slash above it. The fifty-ninth measure contains a quarter note D-2 with a diagonal slash above it. The sixtieth measure contains a quarter note C-2 with a diagonal slash above it. The sixty-first measure contains a quarter note B-2 with a diagonal slash above it. The sixty-second measure contains a quarter note A-2 with a diagonal slash above it. The sixty-third measure contains a quarter note G-2 with a diagonal slash above it. The sixty-fourth measure contains a quarter note F-2 with a diagonal slash above it. The sixty-fifth measure contains a quarter note E-2 with a diagonal slash above it. The sixty-sixth measure contains a quarter note D-2 with a diagonal slash above it. The sixty-seventh measure contains a quarter note C-2 with a diagonal slash above it. The sixty-eighth measure contains a quarter note B-2 with a diagonal slash above it. The sixty-ninth measure contains a quarter note A-2 with a diagonal slash above it. The seventieth measure contains a quarter note G-2 with a diagonal slash above it. The seventy-first measure contains a quarter note F-2 with a diagonal slash above it. The seventy-second measure contains a quarter note E-2 with a diagonal slash above it. The seventy-third measure contains a quarter note D-2 with a diagonal slash above it. The seventy-fourth measure contains a quarter note C-2 with a diagonal slash above it. The seventy-fifth measure contains a quarter note B-2 with a diagonal slash above it. The seventy-sixth measure contains a quarter note A-2 with a diagonal slash above it. The seventy-seventh measure contains a quarter note G-2 with a diagonal slash above it. The seventy-eighth measure contains a quarter note F-2 with a diagonal slash above it. The seventy-ninth measure contains a quarter note E-2 with a diagonal slash above it. The eightieth measure contains a quarter note D-2 with a diagonal slash above it. The eighty-first measure contains a quarter note C-2 with a diagonal slash above it. The eighty-second measure contains a quarter note B-2 with a diagonal slash above it. The eighty-third measure contains a quarter note A-2 with a diagonal slash above it. The eighty-fourth measure contains a quarter note G-2 with a diagonal slash above it. The eighty-fifth measure contains a quarter note F-2 with a diagonal slash above it. The eighty-sixth measure contains a quarter note E-2 with a diagonal slash above it. The eighty-seventh measure contains a quarter note D-2 with a diagonal slash above it. The eighty-eighth measure contains a quarter note C-2 with a diagonal slash above it. The eighty-ninth measure contains a quarter note B-2 with a diagonal slash above it. The ninetieth measure contains a quarter note A-2 with a diagonal slash above it. The ninety-first measure contains a quarter note G-2 with a diagonal slash above it. The ninety-second measure contains a quarter note F-2 with a diagonal slash above it. The ninety-third measure contains a quarter note E-2 with a diagonal slash above it. The ninety-fourth measure contains a quarter note D-2 with a diagonal slash above it. The ninety-fifth measure contains a quarter note C-2 with a diagonal slash above it. The ninety-sixth measure contains a quarter note B-2 with a diagonal slash above it. The ninety-seventh measure contains a quarter note A-2 with a diagonal slash above it. The ninety-eighth measure contains a quarter note G-2 with a diagonal slash above it. The ninety-ninth measure contains a quarter note F-2 with a diagonal slash above it. The hundredth measure contains a quarter note E-2 with a diagonal slash above it. The piece ends with a double bar line and repeat dots.

## SAXOPHONE EQUIPMENT

*The decision to select an instrument, mouthpiece, ligature or reed is a very personal one. However, the bottom line is whatever equipment one selects the following qualities must exist:*

***The ability to play freely with a characteristic tone quality and in tune!***

### Saxophones:

#### Student models:

**Selmer AS300**

**Selmer AS500**

Yamaha 23

#### Intermediate models:

**La Vie 250 series**

**La Vie 240 series**

Yamaha 475

#### Professional

**Selmer Super Action 80 Series II or III**

**Selmer Reference 54**

Yamaha-62II

Yamaha-82Z

### Mouthpieces:

#### Classical

**Selmer S80 C\***

*- Highly recommended. In fact, I will go out on an edge here. Start your beginners on this mouthpiece...you will never be sorry.*

Selmer S80\*\* A bit more open than the C\*

Selmer S90 Different bore size, more open

Vandoren Optimum

#### Jazz

Meyer 6M or 5M

Otto Link 6-8 tip opening / hard rubber or metal

Beechler 5-7 tip opening / hard rubber or metal

Claude Lackey 4\*3 tip opening / hard rubber

Berg Larson hard rubber or metal

Selmer D or E hard rubber or metal

Vandoren A Series hard rubber

#### Reeds:

Medium strength

Vandoren-3 or 3 1/2

Hemke-3 or 3 1/2

*-It should be noted that as a student progresses it is not unusual for the performer to use a slightly harder reed on the soprano, tenor, and baritone.*

#### Ligatures

Selmer, a great starting point, functional.

Bonade, adequate and inexpensive.

Vandoren Optimum, excellent and expensive.

Winslow, excellent and expensive.

BG (France)

## TEACHING VIBRATO

*Incorporating the use of vibrato into one's sound is the student's sound!  
Vibrato is not just a concept of adding tonal color*

- Vibrato is produced by slightly moving the lower jaw up and down.  
NOT in and out, throat, or diaphragmatic.
- Embouchure position should not change
- Listening for two qualities: speed and symmetry of undulation.

uuuuuuu not, vvvvvvvv

- Once the general concept has been achieved, proceed working somewhat rhythmically if you will in eighths notes, then increasing to triplets and sixteenths.
- After student feels comfortable with maintaining 4 pulses per beat, work with metronome for stability and accuracy.
- Add vibrato to long tone warm up, as well as one, two octave, and full range scales.
- Tempo should be increased. Desired results: ♩ = 68-80

REMEMBER:

- Vibrato is the sound, not something that is added.
- Vibrato isn't meant to be metered, but rather a fluid motion.

*There are many who say...  
if you notice the vibrato it is probably wrong!*

## OTHER TECHNICAL ISSUES

### CHROMATIC FINGERINGS

#### Bb: Which one do I use?

- Side Key Bb - may use in almost every situation.
- *Bis* Bb - use in flat keys. The only rule is when using in a classical situation avoid sliding from Bb – B Natural. Utilize the similar rules as with they apply to Bb Thumb key on flute.
- LH 1 & RH 1 – In my opinion-ALMOST NEVER!

#### Chromatic F#

- Chromatic F# should be use in any situation where the player is going from F (or E#) to F# (or Gb). The exception to the rule is when the performer is going to or from E, Eb, or D below the F#.

#### Palm Keys

- Probably the most neglected part of saxophone technique with young students.
- Key to success: Let the air do the work, not the embouchure. In other words, there is no need to overbite!

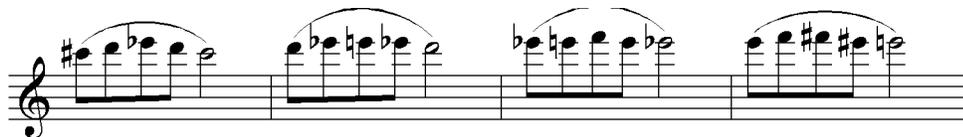

### EXERCISE #5

Focus on hand position, embouchure, and direction air. Work towards evenness of sound and finger technique.

The image shows five staves of musical notation for Exercise #5. Each staff is in treble clef and common time. The first staff begins with a treble clef and a common time signature. Each staff contains two measures of music. The first measure of each staff contains a chromatic scale of eighth notes, and the second measure contains a chromatic scale of eighth notes. The scales are marked with a slur and a comma at the end of the second measure. The first staff starts on G4 and ends on G5. The second staff starts on F4 and ends on F5. The third staff starts on E4 and ends on E5. The fourth staff starts on D4 and ends on D5. The fifth staff starts on C4 and ends on C5.

**EXERCISE #5**

Focus on same issues as above. Begin slowly.

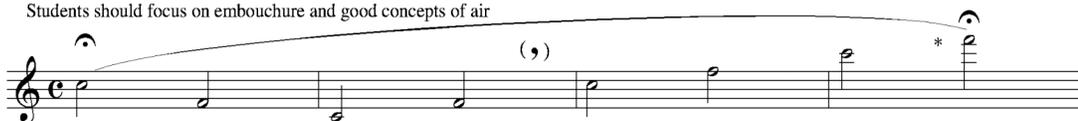

*Continue pattern to high F*

**Auxiliary or Front F**

A very convenient fingering to utilize going to and coming from C or C# above the staff. A must in the development of a student's use of the altissimo range.

Students should focus on embouchure and good concepts of air

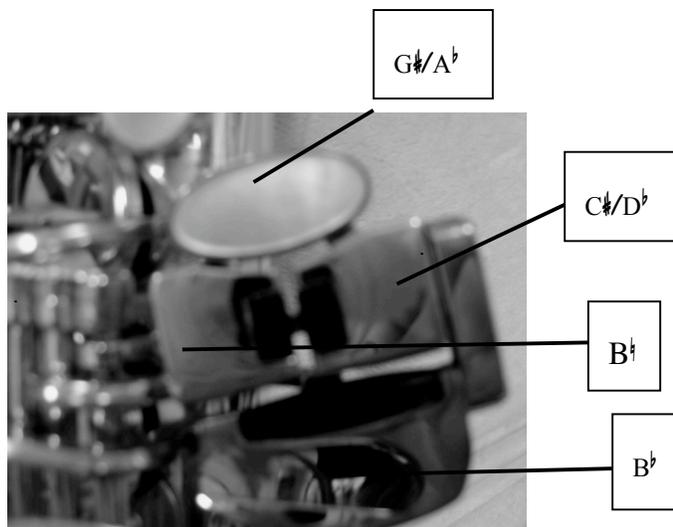

\* Teacher: Depress the AUX F key

The above exercise is also an excellent way to first introduce the high register

**Table Key Cluster**

- Use the rollers!
- Use the fleshy part of the LH pinky
- Know the fingerings!

One very important point mechanical benefit—most all saxophones are built with an articulated G# mechanism. Meaning if your students need to go from G# to C#, play the G# on the low C# key. No need to rock back and forth.

## INTONATION & THE SAXOPHONE

Every instrument has its issues. Okay, maybe the saxophone has a few more. However, making sure that students are playing on a good reed/mouthpiece combination, have a characteristic embouchure, their instrument is in good working order, knowing the natural intonation tendencies of their instrument will all help in having them play in better tone.

### Alternate Fingerings for Improved Intonation

General mechanics: –

- Open a key the pitch is raised.
- Close a key the pitch is lowered.

The notes below seem to be the most problematic. NOTE: Pitches are transposed.

<u>Pitch</u>	<u>Action</u>	<u>Result</u>
[D <sup>1</sup> ]	•Add Table Key C#	Raises pitch
[B <sup>2</sup> ]	•Add SK Bb	Raises pitch
[C <sup>2</sup> ]	•Add SK Bb	Raises pitch
[C# <sup>2</sup> ]	•Add Chromatic C •Add Octave + 3 <sup>rd</sup> Finger (LH) • Add Octave + 3 <sup>rd</sup> Finger (LH) plus any( RH) keys	Raises pitch Raises pitch Lowers pitch
[D <sup>2</sup> ]	•Add low B key (table keys)	Lowers pitch
[D# <sup>2</sup> ]	•Add low B key (table keys)	Lowers pitch
[D <sup>3</sup> ]	•Add RH keys	Lowers pitch
[E <sup>3</sup> ]	•Add RH keys or take off Palm Key 2	Lowers pitch

**Recommended Repertoire**  
HIGH SCHOOL/ALTO SAXOPHONE-  
COMPOSITIONS ARE LISTED IN ALPHABETICAL ORDER.

**HIGH SCHOOL/ALTO SAXOPHONE**

<i>Suite No. 1</i>	J.S Bach/Londeix	Leduc
<i>Aria</i>	Bozza	Leduc
<i>Suite</i>	Bonneau	Leduc
<i>Concerto</i>	Glazounov	Leduc
<i>Sonata</i>	Creston	Shawnee
<i>Sonata</i>	Eccles/Rasher	Carl Fischer
<i>Sonata</i>	Heiden	Schott
<i>Aria</i>	Ibert	Leduc
<i>Fantasie et Impromptu</i>	Jolivet	Leduc
<i>Sicileinne</i>	Lantier	Leduc
<i>Sonata</i>	Lunde	Southern
<i>Tableaux de Provence</i>	Maurice	Lemoine
<i>Sonata Sportive</i>	Tcherepnine	Leduc
<i>Piece en Forme de Habanera</i>	Ravel	Leduc
<i>Chanson et Passepied</i>	Rueff	Leduc
<i>Abstract</i>	Ward	Southern

**HIGH SCHOOL/TENOR SAXOPHONE**

<i>Suite No. 1</i>	J.S Bach/Londeix	Leduc
<i>Sonata</i>	Di Pasquale	Southern
<i>Sonata IV</i>	Galliard	McGinnis & Marx
<i>Poem</i>	Hartley	Tritone
<i>Sonata</i>	Platti/Rousseau	Étoile
<i>Solo de Concert</i>	Singelee	Southern
<i>Solos for the Ten. Saxophone</i>	Teal	Schimer
<i>Chant Corse</i>	Tomasi	Leduc
<i>Sonata</i>	Tuthill	Southern
<i>Fantasia</i>	Villa-Lobos	Southern

**HIGH SCHOOL/BARITONE SAXOPHONE**

<i>Premier Solo,</i>	Demersseman	Roncorp
<i>Little Suite</i>	Hartley	Dorn
<i>Sonata</i>	Hartley	Dorn
<i>Allegro Spiritoso</i>	Senaille	Southern
<i>Solo de Concert, Op. 77</i>	Singelée	Roncorp

~~ Chamber music is vital in developing young players and their musicianship skills. ~~

**HIGH SCHOOL QUARTETS**

<i>Trois Pieces</i>	Albeniz/Mule	Leduc
<i>Andante et Scherzo</i>	Bozza	Leduc
<i>Quatour</i>	Dubois	Leduc
<i>Petit Quatour</i>	Françaix	Schott
<i>Fantasia</i>	Gibbons/Hemke	Southern
<i>Quartet (#1,2,3,4)</i>	Howland	Yabarra
<i>Quatour</i>	Jeanjean	Salebert
<i>Allegro do Concert</i>	Singelee	Carl Fisher
<i>Sonata</i>	Scarlatti/Hemke	Southern

## Classical Saxophone Discography (Compact Disc recordings)

### Solo Saxophone

Arno Bornkamp	<i>Arno Bornkamp</i>	Globe
Frank Borngiorno	<i>Classical Saxophone</i>	Lisio
Paul Bro	<i>NOSTALGIE: Music from Northwestern: Music of Bill Karlins</i>	NU Press
Griffin Campbell	<i>Tableaux</i>	Worldwinds
Claude Delange	<i>The Historic Saxophone</i>	Bis
	<i>A La Francaise</i>	Bis
Susan Fancher	<i>Pondering Nothing</i>	Innova
Fourmeau, Jean-Yve	"Tableaux de Provence" Saxophone Recital	Philips
John Harle	<i>Saxophone Concertos</i>	EMI
Frederick Hemke	<i>The American Saxophonist</i>	Saxo Records
	<i>Simple Gifts</i>	Saxo Records
Lynn Klock	<i>Vintage Flora</i>	Open Loop
Gail B. Levinsky	<i>Saxophone &amp; Other Voices</i>	GBL
Joseph Lulloff	<i>Joseph Lulloff plays the saxophone music of Colgrass, Dahl, Ruggiero</i>	Arizona University Recordings
Steve Mauk	<i>Distances Within Me</i>	Open Loop
Timothy McAllister	<i>Visions</i>	Centaur
Otis Murphy	<i>Memoires of Dinant</i>	RIAX
Eugene Rousseau	<i>Saxophone Colors</i>	Delos
John Sampen	<i>The Contemporary Saxophone</i>	Neuman
William Street	<i>Héliosaxo</i>	Arktos
James Umble	<i>Chamber Music-Dejeuner Sure L'Herbe</i>	Dana
Various Artists	<i>America's Millennium Tribute to Adolphe Sax</i>	Arizona University Records

### Saxophone Quartet

Adelphi Saxophone Quartet	<i>"Simply Four Saxophones"</i>	EMI
Amherst Saxophone Quartet	<i>Lament on the Death of Music</i>	Innova
Apollo Saxophone Quartet	<i>First &amp; Foremost</i>	Argo
Aurelia Saxophone Quartet	<i>Music from America</i>	Challenge Classics
Chicago Saxophone Quartet	<i>Chicago Saxophone Quartet</i>	Centaur
Chicago Saxophone Quartet	<i>July</i>	Elf
New Century Saxophone Quartet	<i>Standards, Vol. 1</i>	Channel Classics
The Rasher Saxophone Quartet	<i>Music for Saxophone &amp; Percussion</i>	Caprice
Kroumata Percussion Ensemble		
Stockholm Saxophone Quartet	<i>Stockholm Saxophone Quartet</i>	Caprice
Transcontinental Saxophone Quartet	<i>Mountain Roads</i>	Albany Records

# Warm Up - Exercise #1

## Long Tones

1  
Musical staff with treble clef, common time signature, and a whole note on middle C (C4). A slur covers the note. Below the staff are two sets of dynamic markings: a wedge that increases from left to right, and a wedge that decreases from left to right.

4  
Musical staff with treble clef, common time signature, and a whole note on D4 (one line below the staff). A slur covers the note. Below the staff are two sets of dynamic markings: a wedge that increases from left to right, and a wedge that decreases from left to right.

7  
Musical staff with treble clef, common time signature, and a whole note on E4 (two lines below the staff). A slur covers the note. Below the staff are two sets of dynamic markings: a wedge that increases from left to right, and a wedge that decreases from left to right.

10  
Musical staff with treble clef, common time signature, and a whole note on F4 (first space below the staff). A slur covers the note. Below the staff are two sets of dynamic markings: a wedge that increases from left to right, and a wedge that decreases from left to right.

13  
Musical staff with treble clef, common time signature, and a whole note on G4 (second space below the staff). A slur covers the note. Below the staff are two sets of dynamic markings: a wedge that increases from left to right, and a wedge that decreases from left to right.

16  
Musical staff with treble clef, common time signature, and a whole note on A4 (third space below the staff). A slur covers the note. Below the staff are two sets of dynamic markings: a wedge that increases from left to right, and a wedge that decreases from left to right.

19  
Musical staff with treble clef, common time signature, and a whole note on B4 (second space, one line below the staff). A slur covers the note. Below the staff are two sets of dynamic markings: a wedge that increases from left to right, and a wedge that decreases from left to right.

22  
Musical staff with treble clef, common time signature, and a whole note on C5 (third space, one line below the staff). A slur covers the note. Below the staff are two sets of dynamic markings: a wedge that increases from left to right, and a wedge that decreases from left to right.

25  
Musical staff with treble clef, common time signature, and a whole note on D5 (third space, one line below the staff). A slur covers the note. Below the staff are two sets of dynamic markings: a wedge that increases from left to right, and a wedge that decreases from left to right.

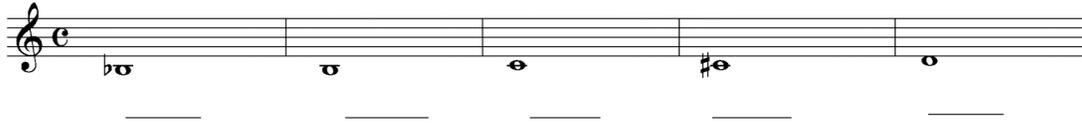

28  
Musical staff with treble clef, common time signature, and a whole note on E5 (third space, one line below the staff). A slur covers the note. Below the staff are two sets of dynamic markings: a wedge that increases from left to right, and a wedge that decreases from left to right.

\_\_\_\_\_

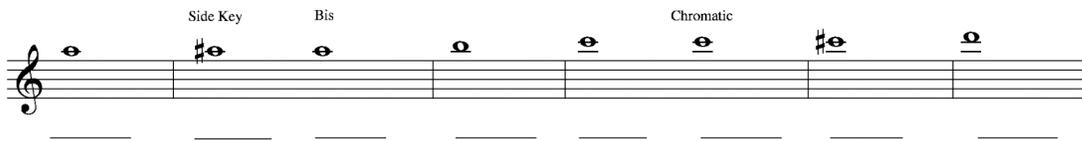

\_\_\_\_\_

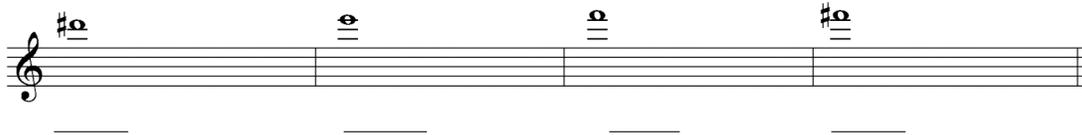

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

General comments:

*This chart was first published in "The Art of the Saxophone" by Larry Teal (© 1961), and is highly recommended for students to begin understanding where the problematic notes lie on their instrument.*

## FULL RANGE SCALES

Studying and practicing full range scales are key to developing tonal and technical mastery. Begin slowly always remembering to practice with a metronome everyday! The importance of scale study is to develop a sense of evenness of tone, as well as finger dexterity throughout the entire range of the instrument.

The image displays 12 musical staves, each representing a different key signature. Each staff contains a full range scale in 2/4 time, consisting of 12 measures. The scales are: C major, F major, Bb major, Eb major, Ab major, C# major, F# major, B major, E major, A major, D major, and G major. The notation includes various articulation marks: asterisks (\*) above notes, plus signs (+) above notes, and 'K' above notes. The scales are written in treble clef.

### Articulations

A single musical staff showing four measures of articulation exercises. Each measure contains a sequence of eighth notes with slurs and accents, demonstrating various articulation techniques.

\* = Bis Bb  
+ = Side Key Bb  
K = Chromatic F#

*Students should begin with one and two octave scales. For the purpose of developing evenness of sound and fingers students should begin the study of full range scales. It's imperative that students utilize chromatic and alternate fingerings at this stage.*

**Gail B. Levinsky** is an associate professor of music at Susquehanna University (Selinsgrove, PA) where she serves as saxophone professor and member of the music education faculty. An active recitalist, collaborative musician, clinician, and music educator, she has performed in the United States, Canada, and Europe. Levinsky has commissioned and premiered a number of new works for saxophone, including most *Sonata for Alto Saxophone and Piano* by Jason Bahr; *Sun Dance for Two Saxophones & Piano* by Mathew Quayle; *Bacarolle for Saxophone and Live Electronics* by Patrick Long; *Langston's Lot for Alto Saxophone, Tenor Voice, and Piano* by Douglas McConnell; and *Nebulae for Alto Saxophone and Organ* by Frank Ferko. With a keen interest in the area of instrumental pedagogy, Dr. Levinsky has significant experience teaching applied studies at the elementary and secondary grade levels, as well as the collegiate setting. She has presented master classes for high school and college programs and at state and regional music education conferences, including the MENC-Eastern Regional.

Levinsky received her Bachelor of Music Education from Butler University, and Levinsky's degrees include the Bachelor of Music from Butler University, and the Master of Music, Graduate Certificate of Performance, Doctorate in Music from Northwestern University. Her dissertation entitled *An Analysis and Comparison of Early Saxophone Methods Published Between 1846-1946*, explores the first hundred years of published methods for teaching the saxophone. She is a member of Pi Kappa Lambda, Kappa Delta Pi honor fraternities, and held elected offices with the North American Saxophone Alliance where she presently serves as its Region VIII director. Dr. Levinsky is a clinician artist for The Conn-Selmer Company, and during the summer months serves on the faculty at New England Music Camp in Sidney, Maine.
